

## Owner's Statement

Welcome to the league. Madden is life. Become familiar with the league contents below as these are the official regulations all owners will follow. These regulations may change or continuously update. All regulation changes will go through the voting process among league owners. There will be a league board of 10 members who will review league improvements, updates and web presence. Ideally I would like board representation from all divisions within the NFC and AFC teams. The league will have three commissioners, myself and one from each conference. Commissioners may nominate another owner for transfer of commissioner rights which will be reviewed by the board for approval. If a commissioner resigns, we will accept new commissioner interest for review by the board. The board members will rotate as necessary and board members could potentially be voted out by other members and owners. All decisions within the league will follow the voting process. Potential ties will be voted by board members, if not resolved at that level it will be the commissioners and a final executive decision will be made by the league owner on case by case basis.

## Qualifications

Review the league requirements, rules® and Madden Code of Ethics (MCE). Complete the entry registration. Pay your league dues. Manage your team to league standards and rules. Agree to allow league stats and news available via online web presence. Be an entrepreneur minded madden player who enjoys building your team, loves the game and has a “no quit” mentality. Buy into the Madden Code of Ethics as the reason I created this league was for real madden players who enjoy playing, managing their team and dream of winning big.
